DETAILED ACTION

Response to Arguments

1. Applicant's arguments based on amendment filed 07/03/2007, with respect to claims 1-5 and 9-12 have been fully considered and are persuasive. The prior art rejection of claims 1-5 and 9-12 have been withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 1-5 and 9-12 are cancelled.

Allowable Subject Matter

3. Claims 6-8 and 13-16 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, ***all*** the limitations of the independent claim(s) (*claims 6, 13 and 16*), particularly a method where bit comparison of endian information from at least one peripheral device with endian information from a computer system is performed such that if the comparison shows the endian information are different, byte-swapping the data that was originally read from the at least one peripheral device, the byte-swapping conducted prior to the transmission of the data to destination.
